

# Architect's Toolbox

## Design successfully with Reward

**Design Guide** *Helpful information on how to design with ICFS*

**CSI Specifications** *2 versions—Reward Specifications and Performance Specifications*

**Dynamic Block Library** *Create detail in elevation, plan and wall section views*

**CAD details** *200+ details in DWG & DXF*

### Third party verification and certification

- Fire Rating Design Listings
- Sound Rating
- Fastener Pull-out Rating
- Minimize Moisture and Mold

**Versatile product line** *Product line has 16 different types which consist of 4 core widths and 5 form configurations—straight, 90 degree corner, 45 degree corner, ledge, double taper top and t-form*

**Comprehensive Product Manual** *Printed, electronic and online*

### Extensive Building codes

- ICC ES ESR - 1552
- CCMC 13107-R (English and en Français)
- City of Los Angeles Research Report RR25418
- Miami-Dade Building Code Acceptance: 03-1112.05
- City of New York: MEA 116-03-M
- Florida Product Approval FL 1743
- Wisconsin 200715-I
- Ontario Minister's Ruling No. 04-20-124(13107-R)

## Leadership in Environmental and Energy Design (LEED)

Reward ICFS allow architects and designers to create buildings that use fewer natural resources and are more sustainable. Reward ICFS:

- Reduce waste at the construction site, and any waste produced is 100% recyclable. Use fewer natural resources, such as gas, electric and wood
- Are manufactured clean, producing no HCFCs or CFCs during the manufacturing process, and they contain no formaldehyde
- Reduce operating costs
- Create structures that last longer and with less maintenance

When Reward Wall Systems is incorporated into a LEED conforming exterior envelope, the energy efficiency and material properties of Reward can help a project qualify for points in four of the six LEED New Construction categories\*. LEED Categories that Reward ICFS contribute towards are

- *Energy and Atmosphere*
- *Materials and Resources*
- *Indoor Environmental Quality*
- *Innovation and Design Process*

**CES Registered Provider** *Continuing Education programs offered #J143*

*LEED and Reward ICFS: Reward's iForm™ does not provide any points for LEED certification on its own*
